ASD: Autism Spectrum Disorder

MCFD: Ministry of Children and Family Development or the ministry

CLBC: Community Living BC
Introduction

This handbook is for parents and caregivers of children and youth who may have, or have been diagnosed with, Autism Spectrum Disorder (ASD). It provides information on ASD, intervention, and programs available for children and youth with ASD and their families.

The Ministries of Children and Family Development (MCFD), Education and Health, and Community Living BC (CLBC) work closely to coordinate assessment, diagnosis, intervention and support services for children and youth with ASD and their families.

Services and Supports for Children and Youth with Special Needs and Their Families

In addition to the autism programs described on pages 9-12, MCFD and CLBC provide a range of programs for children and youth with special needs and their families. These include:

- Aboriginal Infant Development Program
- Aboriginal Supported Child Development
- At Home Program (medical and respite)
- Community Brain Injury Program
- Early Intervention Therapies
- Infant Development Program
- Key Worker and Parent Support
- Nursing Support Services
- Provincial Outreach and Professional Supports
- Provincial Services for the Deaf and Hard of Hearing
- School-Aged Therapies
- Supported Child Development

For information on program eligibility, see the WEBLINK.
**What is Autism Spectrum Disorder?**

Autism Spectrum Disorder is a complex condition that impacts normal brain development and affects a person’s social relationships, communication, interests and behaviour. Studies indicate that ASD affects one in every 150-165 children. ASD usually appears early in life, often before the age of three, and is four to five times more common in boys than in girls.

ASD is a general term that includes the following disorders: Autistic Disorder, Asperger’s Disorder, Pervasive Developmental Disorder – Not Otherwise Specified (PDD-NOS), Rett’s Disorder, and Childhood Disintegrative Disorder (CDD). In each of these disorders, social interaction is most commonly affected.

The symptoms and characteristics of ASD can present themselves in a wide variety of combinations, from mild to severe. Although ASD is defined by certain sets of behaviours, individuals can exhibit any combination of the behaviours in any degree of severity. Children with the same diagnosis can act very differently and have varying skills. Therefore, there is no standard “type” or “typical” person with ASD.

Parents may hear different terms used to describe children within the spectrum, such as: autistic-like, autistic tendencies, autism spectrum, high-functioning or low-functioning autism. These terms are not related to the child’s abilities or needs. It is more important to understand that, whatever the diagnosis, appropriate education and treatment based on the child’s abilities and needs can help children to develop to their full potential.

Early Indicators of Autism Spectrum Disorder

If you think your child may have Autism Spectrum Disorder (ASD), please read through the list of possible signs of ASD. Your child does not need to demonstrate all of the indicated behaviours in order to be referred for an assessment. Please note that these characteristics may also be indicators of other conditions.

Possible signs of ASD (adapted from First Signs*):

- Seems disinterested in sharing enjoyment with others
- Does not speak, or uses very few words
- Appears to understand very little
- May seem deaf or doesn’t respond when name is called
- Unusual sensitivity to light or sound; for example, flickering lights or a vacuum cleaner can provoke uncontrolled screaming
- May walk on his or her toes
- When excited, may flap hands
- May not make eye contract as other children do
- May resist cuddles and hugs
- Frequent tantrums when required to do anything new or when asked to change activities without advance warning
- Does not point to show you interesting things
- Does not engage in make-believe play
- May line up toys and obsess on strange objects
- Does not show objects to others
- Does not look to where you are pointing
- Likes things to be done the same way all the time
- Exhibits a loss of social play or language skills

If you think your child is not developing typically, please consult your doctor as soon as possible. Your local Child Development Centre or Infant Development Program may also be able to provide information, guidance and support.

*First Signs, Inc. is a national non-profit organization dedicated to educating parents and pediatric professionals about the early warning signs of autism and other developmental disorders.
What to Do if You Think Your Child May Have Autism

1. **Review Early Indicators of Autism Spectrum Disorder on page 3**

2. **Make an appointment to discuss your concerns with your child’s doctor**

3. **Doctor makes a referral to British Columbia Autism Assessment Network (BCAAN)**

4. **Assessment**

5. **Child receives a diagnosis of ASD**

6. **Contact CLBC to apply for Autism Programs**

7. **Doctor does not make a referral for assessment**

8. **Child does not receive diagnosis of ASD**

9. **Continue to monitor your child’s development. If concerns continue, let your child’s doctor know.**

10. **Your local Child Development Centre is another source of information and support.**
What Causes Autism Spectrum Disorder?
The causes of autism are still largely unknown. We do know that it is not caused by parents or the way a child is raised, and there is likely no single cause. Research is underway to explore possible causes including genetic and environmental factors.

Is There a Cure?
For now, there is no cure for ASD. There are, however, highly effective treatment and intervention methods available that can help individuals and their families address the characteristics of this disorder. Early interventions based on best practices are intended to help children with ASD develop skills, learn to communicate effectively, share in family life and enjoy success at school. For more information on best practices, please see page 24.

WEBLINKS
For information on current research, see the National Institute of Mental Health:
www.nimh.gov/health/publications/autism/research.html
Assessment and Diagnosis

British Columbia Autism Assessment Network (BCAAN)

If you have concerns about your child’s development, please see your family doctor who may refer you to BCAAN for assessment and diagnosis.

BCAAN provides multidisciplinary diagnostic assessments for children under aged six and clinical diagnostic assessments for children age six and older. Children can be diagnosed at any age, some as young as two years old. BCAAN will arrange for an assessment to be done as close to where you live as possible. There is no charge for BCAAN services.

At the completion of the assessment and diagnosis, you will receive a BCAAN Clinical Outcomes form. This form provides a summary of the testing results that will indicate whether your child has Autism Spectrum Disorder.

Non-BCAAN (Private) Assessment and Diagnosis

Families may obtain a non-BCAAN (private) diagnostic assessment. This assessment must meet the same standards as a BCAAN assessment (see the WEBLINK opposite page).

Children under age six require a multidisciplinary diagnostic assessment. Children age six and older require a clinical diagnostic assessment (completed by a paediatrician, child psychiatrist, or registered psychologist).

The clinician must complete a Non-BCAAN (Private) Diagnosis of Autism Spectrum Disorder form to document a positive ASD diagnosis if the family wishes to apply for autism programs.

Parents are responsible for any costs charged for the private assessment.

Children Over Age Six Diagnosed with ASD Prior to April 1, 2004

If your child was diagnosed with ASD before April 1, 2004, and you would like to apply for autism programs, a Confirmation of Previous Diagnosis of ASD form must be completed by a qualified B.C. specialist (paediatrician, child psychiatrist, or registered psychologist).

Moving to B.C. from Another Province

If your child has had a diagnostic assessment of ASD from another province in Canada and you are applying for the Ministry of Children and Family Development (MCFD) autism programs, a Confirmation of Diagnosis form must be completed by a qualified B.C. specialist (paediatrician, psychiatrist or registered psychologist).

Moving to B.C. from Another Country

Families who have recently moved to British Columbia (B.C.) from another country are required to have a new diagnostic assessment for ASD within B.C. to apply for autism programs.

You can obtain the Non-BCAAN (Private) Diagnosis of Autism Spectrum Disorder and Confirmation of Diagnosis forms from the WEBLINK opposite or by calling MCFD at 1 877 777-3530.
WEBLINKS

BCAAN: www.phsa.ca/AgenciesServices/Services/Autism

Confirmation of Diagnosis form: www.mcf.gov.bc.ca/autism/programs/forms.htm

My Child Has a Diagnosis of Autism Spectrum Disorder. What Do I Do?
When a child is diagnosed with ASD, the emotional impact on parents and extended family can be profound. This can be a very difficult and stressful time for everyone.

Every family has their own questions and concerns, but for many families it is important to learn as much about ASD as possible, and to connect with other parents and professionals who can offer information and support.

Information on local groups can be found through organizations listed on page 28. Workshops are also available throughout the province on a range of topics (see the ACT—Autism Community Training WEBLINK below for more information).

It is important for parents to know that children and youth with ASD can benefit from an intervention program. Research has identified interventions and approaches that are supported by evidence and proven to be effective for ASD – these are known as best practices. For more information on best practices, please see page 24.

Applying for Autism Programs
If your child has been diagnosed with ASD, contact your local CLBC Community Living Centre to:
• complete an Autism Funding Agreement, or;
• receive a referral to the Early Intensive Behavioural Intervention Program, available for children age five or younger is some communities. For more information, see page 9.

The WEBLINK will help you find the closest CLBC Community Living Centre to your community, or see the contact information on page 27.

WEBLINKS

Autism Programs

The Ministry of Children and Family Development, in partnership with CLBC, provides three autism programs:

- Early Intensive Behavioural Intervention (EIBI)
- Autism Funding: Under Age 6
- Autism Funding: Ages 6-18

Early Intensive Behavioural Intervention (EIBI)

The EIBI Program is for children with ASD who are age five or younger and is available in the following communities:

- Delta
- Greater Victoria
- Kamloops
- Kelowna
- Langley
- Penticton
- Surrey

There may be a waitlist for services, as the EIBI Program can accept a limited number of children at a time. Children aged five and older are not eligible to enter the program.

EIBI is an intensive intervention program based on Applied Behaviour Analysis (ABA). Children receive between 18 and 24 hours of one-to-one intervention per week, most often at home. The intervention is coordinated and supervised by a behaviour consultant. An interdisciplinary approach is used, which includes speech-language pathology and occupational therapy services.

To find out if your child is eligible for EIBI, contact your local CLBC Community Living Centre or EIBI program.

Central Okanagan Child Development Association (Kelowna) 250 763-5100
Reach Child and Youth Development Society (Surrey, Delta, Langley) 604 946-6622
Okanagan Similkameen Neurological Society (Penticton) 250 492-0295
Queen Alexandra Centre for Children’s Health (Greater Victoria) 250 477-1826
Thompson Nicola Family Resource Society (Kamloops) 250 371-4100

Transitioning between EIBI and Autism Funding Programs:

Parents may receive Autism Funding while their child is waiting for the EIBI Program. Contact CLBC at 1-877-660-2522 to terminate funding if your child enters the EIBI Program. When your child leaves the EIBI Program, contact CLBC to complete a new funding agreement.

WEBLINKS

Community Living BC: www.communitylivingbc.ca

Tip for Parents

Parents who are considering EIBI for their child should be aware that this is an intensive program. Parents must be prepared to participate fully with all aspects of the program, including parent education, team meetings and ensuring that their child is available for all scheduled sessions.
Autism Funding: Under Age 6
The primary intent of Autism Funding: Under Age 6 is to assist families with the cost of purchasing autism intervention services (based on best practices) to promote their child’s communication, social-emotional, pre-academic and functional life skills development. Families of children age five and younger with a diagnosis of ASD may receive up to $20,000 per year towards eligible intervention.

Your child’s intervention program must be based on a plan that takes into account his or her unique strengths and needs. This Behavioural Plan of Intervention (BPI) is written by a behaviour consultant, with input from family members and other intervention team members, such as the speech-language pathologist, occupational therapist, physiotherapist, and/or behaviour interventionist(s). The BPI should be reviewed and updated regularly to ensure that your child is making meaningful progress. For more information on BPIs, see page 26.

You must submit the BPI to CLBC within four months of signing the Autism Funding agreement. The behaviour consultant you use to develop and monitor your child’s BPI must be selected from the Registry of Autism Service Providers (RASP). While the BPI is being completed, you may hire other professionals listed on the RASP. An updated BPI must be submitted annually to CLBC.

Registry of Autism Service Providers (RASP)
Parents of children receiving Autism Funding: Under Age 6 are required to select professional service providers for their child from the RASP. The RASP is managed by ACT – Autism Community Training on behalf of the Ministry of Children and Family Development. In order to be included on the RASP, professionals must demonstrate that their education and experience meet the qualifications described by the ministry.

WEBLINKS
Registry of Autism Service Providers (RASP) and information on choosing service providers at: www.actcommunity.net
Autism Funding: Under Age 6 may only be used for the following:
• Services of behaviour consultants, speech-language pathologists, occupational therapists, and physiotherapists who are listed on the Registry of Autism Service Providers (RASP) (see WEBLINK opposite page).

Tip for Parents
The service provider's hourly rate of pay should reflect the cost of doing business. Administrative costs incurred by the service provider are not eligible expenses.

• Behaviour interventionists
• Administrative costs (e.g., bookkeeping/payroll, up to $100 monthly). Only for families receiving direct funding (see page 19 for more information on direct funding).
• Applicable employer costs (e.g., employee income tax, Canada Pension Plan, Employment Insurance and Workers Compensation Board premiums, 4 per cent vacation pay).
• Up to 20 per cent of the funding may be used for training, travel costs to access autism intervention and training within B.C. (round trip greater than 80 kms) and equipment as necessary for effective intervention, outlined in a Justification for Equipment/Supplies form from a professional/specialist (please see the WEBLINK next page or Autism Funding: Under Age 6 - Ineligible Expenses on page 12 for more information).

Training within B.C. (round trip greater than 80 kms):
• Reimbursement for registration and travel costs for parents or behaviour interventionists to attend autism-specific training. Fees for post-secondary credit courses are not eligible expenses.
• Travel expenses may include actual fare for air, bus or train travel, or mileage at $0.40 per kilometre for a private vehicle.
• Hotel expenses to a maximum of $100 per night are eligible.
• Parking may be reimbursed to a maximum of $15 per day.
• Ferry and toll charges are eligible expenses.

Educational books, DVDs and videos for parents (specific to autism).

Travel costs to access autism intervention within B.C. (round trip greater than 80 kms):
• If you are unable to access service providers in your own community, you may claim expenses for the most cost-effective method of receiving services as close to home as possible.
• Options may include travel to the service provider or bringing the service provider to the community.
• Travel expenses may include actual fare for air, bus or train, or mileage at $0.40 per kilometre for a private vehicle.
• Hotel expenses to a maximum of $100 per night are eligible.
• Parking may be reimbursed up to a maximum of $15 per day.
• Ferry and toll charges are eligible expenses.
Equipment and materials related to intervention:

Equipment and materials necessary for the child’s intervention must be requested in a Justification for Equipment /Supplies form that is completed by a professional/specialist from the following list:

- Behaviour consultant
- Physiotherapist
- Speech-language pathologist
- Occupational therapist
- Registered psychologist
- Registered psychological associate
- Paediatrician
- Psychiatrist
- Neurologist

Other avenues of funding for equipment purchases or loans must be explored. Purchases must not duplicate those that would be approved under SET-BC, the At Home Program, other agencies providing equipment or that are typical expenses for a child. Please see the WEBLINK below for more information on SET-BC.

**WEBLINKS**

- Justification for Equipment/Supplies form: [www.mcf.gov.bc.ca/autism/programs/forms.htm](http://www.mcf.gov.bc.ca/autism/programs/forms.htm)
- SET-BC: [www.setbc.org](http://www.setbc.org)
- ACT – Autism Community Training: [www.actcommunity.net](http://www.actcommunity.net)

**Autism Funding: Under Age 6 Ineligible Expenses**

Some interventions and equipment recommended by a professional/specialist are ineligible expenses. The following are examples of ineligible items:

- Home repairs, renovations, swimming pools, hot tubs, trampolines, playground equipment
- Household items, including appliances
- General recreation and sports enrolment fees
- Sports/fitness equipment, including bicycles
- Electronics, including televisions, CD players, stereos, MP3 players, game systems, video games, tracking devices, and cellular phones/palm pilots
- Non-ASD specific CDs, DVDs, and videos
- Musical instruments (purchase or rental)
- Vitamins, medical supplies, incontinence supplies, orthotics
- Clothing, helmets
- Food (however, small reinforcers for Applied Behaviour Analysis therapy may be eligible)

The following are examples of ineligible services:

- Child care
- Respite
- Lessons (group or individual), such as swimming and karate
- Medical services

Not all ineligible expenses are listed here. It is recommended that families contact the Autism Funding Unit at 1-877-777-3530 for pre-approval before purchasing items.

(see page 23)

---

1. **Contact CLBC to apply for Autism Programs**
2. **Receive Autism Funding: Under Age 6**
3. **Apply to EIBI Program**
4. **Contact ACT to learn about ASD intervention and how to hire a service provider**
5. **Interview potential service providers from RASP**
6. **Select a Behaviour Consultant (BC) from the RASP**
7. **Select an SLP, OT and PT from the RASP, if needed for your child**
8. **The BC develops a Behavioural Plan of Intervention, with input from the parents and the child’s SLP, OT, and/or PT**
9. **Select Behaviour Interventionists to implement the BPI, under the supervision of the BC**
10. **The BC updates the BPI regularly, based on the child’s progress**
11. **Provide a copy of BPI to CLBC**
12. **Provide an annual BPI to CLBC**
Autism Funding: Ages 6 - 18
The primary intent of Autism Funding: Ages 6 - 18 is to assist families with the cost of purchasing autism intervention that will promote their child's communication, social-emotional, academic and functional life skills development.

Families of children aged 6 to 18 with a diagnosis of ASD may receive up to $6,000 per year towards eligible intervention services that are outside of the child's school or educational program (please see Best Practices on page 24). Up to 20 per cent of the annual funding may be used to purchase training, travel and equipment related to autism intervention.

What can Autism Funding: Ages 6 – 18 be used for?
Funding may be used to purchase a range of autism intervention services, designed to address your child’s individual needs. For example, you may choose to use the funding for consultation on a specific routine or behaviour issue that is impacting your child or family. Some examples of common routine issues are: toileting, bedtime, independent play, meal times, morning routines and transportation issues.

Autism Funding: Ages 6 – 18 may only be used for the following:
- Behaviour consultants
- Speech-language pathologists, occupational therapists, and physiotherapists
- Behaviour interventionists
- Life skills and social skills programs
- Out-of-school learning support/tutoring (not part of the regular school program)
- Specialized therapeutic activities and camps designed to address your child’s ASD
- Dietary or nutritional counseling from a registered dietician/nutritionist
- Family counseling/therapy
- Other interventions as recommended by a professional/specialist (written pre-approval from the Autism Funding Unit recommended)
- Administrative costs (e.g., bookkeeping services, up to $50 monthly) for families receiving direct funding (see page 19 for more information on direct funding)
- Applicable employer costs (e.g., employee income tax, Canada Pension Plan, Employment Insurance and WorkSafeBC premiums, 4 per cent vacation pay)
• Up to 20 per cent of the funding may be used for training, travel costs to access autism intervention and training (round trip greater than 80 kms), and equipment as necessary for effective intervention, outlined in a Justification for Equipment/Supplies form completed by a professional/specialist (see the WEblink below or Autism Funding: Ages 6-18 - Ineligible Expenses on page 16 for more information).

Training within B.C. (round trip greater than 80 kms):
• Reimbursement for registration and travel costs for parents or behaviour interventionists to attend autism-specific training.
• Travel expenses may include actual fare for air, bus or train travel, or mileage at $0.40 per kilometre for a private vehicle.
• Hotel expenses to a maximum of $100 per night are eligible.
• Parking may be reimbursed to a maximum of $15 per day.
• Ferry and toll charges are eligible expenses.
• Educational books, DVDs and videos for parents (specific to autism).

Travel costs to access autism intervention within B.C. (round trip greater than 80 kms):
• If you are unable to access service providers in your own community, you may claim expenses for the most cost-effective method of receiving services as close to home as possible.
• Options may include travel to the service provider or bringing the service provider to the community.
• Travel expenses may include actual fare for air, bus or train, or mileage at $0.40 per kilometre for a private vehicle.

• Hotel expenses to a maximum of $100 per night are eligible.
• Parking may be reimbursed up to a maximum of $15 per day.
• Ferry and toll charges are eligible expenses.

Equipment and materials related to intervention:
Equipment and materials necessary for the child’s intervention must be requested in a Justification for Equipment/Supplies form completed by a professional/specialist from the following list:
• Behaviour consultant
• Physiotherapist
• Speech-language pathologist
• Occupational therapist
• Registered psychologist
• Registered psychological associate
• Psychiatrist
• Neurologist

Other avenues of funding for equipment purchases or loans must be explored. Purchases must not duplicate those that would be approved under SET-BC, the At Home Program, other agencies providing equipment or that are typical expense for a child. Please see the WElink below for more information on SET-BC.

WElinks
Justification for Equipment/Supplies form: www.mcf.gov.bc.ca/autism/forms.htm
SET-BC: www.setbc.org
**Autism Funding: Ages 6-18**

**Ineligible Expenses**

Some interventions and equipment recommended by a professional/specialist are ineligible expenses. The following are examples of ineligible items:

- Home repairs, renovations, swimming pools, hot tubs, trampolines, playground equipment
- Household items, including appliances
- General recreation and sports enrolment fees
- Sports/fitness equipment, including bicycles
- Electronics, including televisions, CD players, stereos, MP3 players, game systems, video games, tracking devices and cellular phones/palm pilots
- Non-ASD specific CDs, DVDs, and videos

- Vitamins, medical supplies, incontinence supplies, orthotics
- Clothing, helmets
- Food (however, small reinforcers for Applied Behaviour Analysis therapy may be eligible)

The following are examples of services that are not eligible:

- Child care
- Respite
- Lessons (group or individual), such as swimming and karate
- Medical services

Not all ineligible expenses are listed. It is recommended that families contact the Autism Funding Unit at 1-877-777-3530 for pre-approval before purchasing items.
**Accessing Autism Programs**

**Step 1:**
Once an assessment is completed, you will receive a BCAAN Clinical Outcomes form or a Non-BCAAN (Private) Diagnosis of ASD form. If the form indicates a diagnosis of ASD and you would like to apply for autism programs, it is important to contact the local CLBC Community Living Centre as soon as possible to schedule a meeting with a facilitator (see Contact Us on page 27).

The following documents are required:
- The BCAAN Clinical Outcomes form or Non-BCAAN (Private) Diagnosis of ASD form, showing a diagnosis of ASD (see Diagnosis and Assessment on page 6)
- Proof of your child’s age (such as a birth certificate)
- Your child’s BC Care Card
- An Application for Autism Programs.

The Application for Autism Programs can be found at: www.mcf.gov.bc.ca/autism/, or the CLBC facilitator can provide you with one.

**Step 2:**
A CLBC facilitator will meet with you to:
- Confirm your child’s eligibility for autism programs
- Describe the autism programs, including the options available in your community
- Discuss additional planning and support service available through CLBC (please see the sidebar)

For families selecting the Early Intensive Behavioural Intervention (EIBI) Program, the facilitator will make a referral. For families receiving autism funding, the funding agreement may be signed at this meeting, if you know which funding option you are choosing. If not, arrangements will be made to sign the funding agreement as soon as possible.

**Step 3:**
The CLBC facilitator will continue to be available to answer questions about the program. If your child is enrolled in autism funding and you are using the Direct Funding Option, the funding agreement will expire on the last day of the month of your child’s birthday. You should receive a renewal agreement two months before the expiry date. If you do not receive the renewal agreement, please contact CLBC (see Contact Us on page 27).

---

**Tip for Parents**

Your child will be eligible for funding from the first day of the month that CLBC receives all required documents. It is suggested that you mail or fax the required documents to the local CLBC Community Living Centre before your meeting with a facilitator (see Contact Us on page 27). The facilitator will review the documents to ensure that they are complete.

---

**Tip for Parents**

In addition to autism programs, CLBC provides a range of supports for families of children and youth with special needs. The facilitator will provide you with information about these supports, or arrange for another meeting time to do so.
Funding Options

Families receiving Autism Funding: Under Age 6 or Autism Funding: Ages 6-18 may choose either of the following funding options:

- Invoice Payment (IP) Option
- Direct Funding (DF) Option

The following terms and conditions apply to both funding options:

1. The program funding for each year ends and may be renewed at the end of the month of the child’s birthday.

2. The child is no longer eligible and program funding ends:
   - At the end of the month of the child’s 19th birthday
   - If the child is receiving other contracted autism services such as Early Intensive Behavioural Intervention (EIBI) or other government-funded program for autism intervention
   - When the child no longer lives in British Columbia.

The Ministry of Children and Family Development reserves the right to select the funding option.

Invoice Payment Option

The Invoice Payment Option was created in response to requests from many families who found Direct Funding too time-consuming or difficult to manage.

Through an Autism Invoice Payment Agreement, funding is set aside in an “account” held within government in the child’s name and payment is provided directly to service providers for eligible intervention services. Parents choose the service(s) they need and the service provider(s), and notify the Autism Funding Unit using a Request to Pay Service Providers/Suppliers form. Account balance information is provided to parents upon request to the Autism Funding Unit.

Parents are responsible for managing employment-related expenses, such as Canada Pension Plan, Employment Insurance and Workers’ Compensation Board premiums, where there is an employer/employee relationship. MCFD cannot make these payments on behalf of parents but can reimburse parents for these expenses.

Parents may switch to the Direct Funding Option from the Invoice Payment Option by contacting Community Living BC prior to their child’s birthday month.

The Invoice Payment Option may be right for you if you prefer to:

- Have the ministry manage your autism funds and pay service providers
- Eliminate the GST charged by service providers, essentially extending your funding
- Access any amount of the funds at any point during the funding year
- Have your Autism Invoice Payment Agreement automatically renewed each year.
**Direct Funding Option**

The Direct Funding Option provides funding directly to families through an Autism Funding Agreement. Families pay for eligible intervention services using these funds. Under the Direct Funding Option, the parent must open a separate bank account, into which only the autism funds may be deposited, and out of which only autism expenses may be withdrawn (an “in trust” account is not required). Expenses must be reported to the Autism Funding Unit on a monthly basis for Autism Funding: Under Age 6, or on a quarterly basis for Autism Funding: Ages 6–18.

Families may switch to the Invoice Payment Option from the Direct Funding Option at any time by contacting CLBC and cancelling the Autism Funding Agreement. CLBC staff will help families complete the necessary forms for the Invoice Payment Option.

The Direct Funding Option may be right for you if you are prepared to:

- Manage your autism funds and pay service providers
- Account back to the ministry for the use of autism funds
- Renew your Autism Funding Agreement each year by initiating contact with Community Living BC.

**Please note:** If the balance of your unspent autism funding payments exceeds:

- $3,400.00 for Autism Funding: Under Age 6 or
- $1,500.00 for Autism Funding: Ages 6–18

as reported on your Schedule Bs, payments will be temporarily withheld.

You can obtain the Request to Pay Service Providers/Suppliers form from the WEBLINK below or by calling MCFD at **1 877 777-3530**.

**WEBLINKS**

| Request to Pay Service Providers/Suppliers form: | www.mcf.gov.bc.ca/autism/programs/forms.htm |
Autism Funding Programs and Parent Responsibilities

The autism funding programs offer flexibility and choice to parents.

It is important to know the responsibilities associated with these programs. Review the parental obligations listed in your Autism Funding Agreement or Autism Invoice Payment Agreement and request clarification from Community Living BC (CLBC) if needed. Each funding option has different parental responsibilities.

Parents’ responsibilities include:

- Using the funds for eligible autism intervention expenses and for no other purpose, in accordance with the terms of the funding agreement and current program policies
- Hiring, monitoring and paying service providers
- Ensuring all service providers are at least 19 years old and have a clear and current criminal record check
- Determining whether an employer/employee relationship exists between the parent and service providers
- Meeting employer/employee obligations, including complying with relevant employment standards and paying Canada Pension Plan, Employment Insurance and Workers’ Compensation Board – WorksafeBC premiums and other employer costs as required
- If the child is under age six:
  - Submitting a copy of the child’s Behavioural Plan of Intervention within four months of entering into the Autism Funding or Invoice Payment Agreement
  - Selecting professional service providers from the Registry of Autism Service Providers
- For Direct Funding, submitting Schedule B of the Autism Funding Agreement, original detailed expense receipts or invoices with proof of payment, and bank statements to the Autism Funding Unit within the timelines outlined in the terms of the Autism Funding Agreement
- For Invoice Payment, submitting a Request to Pay Service Providers/Suppliers form to the Autism Funding Unit for each service provider, indicating the maximum amount that the service provider can invoice for the year
- Contacting CLBC on an annual basis to renew the Autism Funding Agreement
- Notifying the Autism Funding Unit and CLBC within 30 days of any changes in address, child’s care or custody, or any change in circumstances that may eliminate or reduce the need for funding (this includes enrolment in the EIBI program)
- Additional responsibilities as noted in the Autism Funding Agreement or Autism Invoice Payment Agreement

*Please note:* The Autism Funding Unit and CLBC are not able to provide advice or answer questions with regards to employer responsibilities or taxation.
**Foster Parents and Children In Care**

Children in care are eligible for autism programs. If you think that a child or youth you are caring for may have autism, discuss your concerns with his or her guardianship worker.

Services for children and youth with ASD are jointly delivered by MCFD and Community Living BC. The child or youth’s guardianship worker completes the Autism Funding Application (see the WEBLINK below). CLBC facilitators confirm eligibility and initiate access to autism funding.

For information on health supports available for children in care, please see the Health Supports Guide accessible through the WEBLINK below.

---

**Appeals or Complaints**

If you are dissatisfied with a service provided by Community Living BC, or disagree with a decision made by a CLBC staff member, see the WEBLINK below for CLBC’s complaint resolution process.

If you have a concern about the service provided by the Autism Funding Unit, or about an autism funding decision, contact the Autism Funding Unit at 1-877-777-3530. If your complaint is not resolved, contact the manager, Autism Funding Unit, at 1-877-777-3530.

Tips For Parents

Who Will Be Working with My Child?
Depending on the needs of your child his or her therapy team may include:

- **Behaviour Consultant (BC)**: Designs and/or develops the individualized Behavioural Plan of Intervention (BPI) and behaviour support plans, and provides ongoing supervision of the plans.

- **Speech-Language Pathologist (SLP)**: Provides services that focus on verbal and non-verbal communication skill development and the oral-motor skills required for drinking and eating.

- **Occupational Therapist (OT)**: Provides services to promote the development of the child’s highest attainable level of participation in all daily activities.

- **Physiotherapist (PT)**: Provides services that focus on the prevention, identification and alleviation of movement dysfunction.

- **Behaviour Interventionist(s) (BI)**: Implements the BPI, under the supervision of the Behavioural Consultant, typically on a one-to-one basis.

When hiring professionals, select someone whose training, experience and approach fits with the needs and strengths of your child and family. Understand what each person on your child’s team will be doing, how much time they will spend with you and your child, and what they charge for their services. You should have a written contract or agreement with the professionals you hire. Information on selecting a professional to work with your child is available from ACT – Autism Community Training.

How Much Can I Expect to Pay for Services?
The yellow box has guidelines to assist you and service providers in negotiating fees. These guidelines were developed in consultation with professionals and upon review of existing guidelines developed by professional associations. Although many factors may affect the fees charged by professionals, you can expect a correlation between the rate and their credentials, education and experience.

Fee Guidelines

**BC:** $60 - $100 per hour
(Registered psychologists: Up to $150 per hour)

**OT:** $80 - $110 per hour

**SLP:** $95 - $120 per hour

**PT:** $64-74 per visit

**BI(s):** $10 - $30 per hour
$15 to 20 per hour is common.

Service providers’ rates may vary from these guidelines.

How Do I Know My Child is Receiving Quality Intervention?
An intervention program should be based on best practices. “Best practices” refers to interventions and approaches that are supported by evidence and proven to be effective.

MCFD requires that interventions and programs for children under age six be based on best practices. These should also be used as a reference for children over age six.

Best Practices for Autism Intervention

- Development of an individualized behavioural plan of intervention based on a curriculum that emphasizes: academic, communication, social/play skills, emotional/self regulation, motor/sensory functioning, independence/life skills
- Intensive one-to-one intervention at home, in preschool programs and in a variety of community settings on a year-round basis
- High levels of predictability and routine
- Highly supportive, structured teaching methods, based on the principles of applied behaviour analysis (ABA), that incorporate a variety of strategies to help your child acquire, generalize and maintain new skills
- Intervention progresses from more formal and structured settings to more natural environments
- Use of functional assessment and positive behavioural support techniques to address problem behaviours
- Collaboration between behaviour consultants and therapists such as speech-language pathology, occupational therapy and physical therapy
- Interaction with typical children in preschool or day-care settings
Families are involved in the development, implementation and review of intervention plans and receive training in order to help their child progress.

Deliberate planning for the transition from preschool to kindergarten.

Interventionists are trained.

Regular, ongoing monitoring of the child’s progress.

Lovaas, OI. *Teaching Individuals with Developmental Delays*. Austin, TX: Pro-Ed.

When choosing an intervention for your child, ask the service provider:

- Is there research that shows this intervention is effective, if so what kind of research is it?
- How will this intervention help my child function better?
- How will my child’s progress be evaluated?
- What will be the measures and how often?
- How will the program be adjusted according to my child’s progress?

Information on selecting a professional to work with your child is available from ACT – Autism Community Training (see the WEBLINK opposite).

WEBLINKS

ACT – Autism Community Training: www.actcommunity.net/autism_information/autism_treatment/selecting_a_professional.htm
What is a Behavioural Plan of Intervention (BPI)?

A behavioural plan of intervention (BPI) is an individualized program designed for a specific child that focuses on identifying areas where the child needs intervention. It is developed and written by a behaviour consultant in collaboration with the parents of the child, and includes input from professionals who are members of the child’s team (e.g., speech-language pathologist, occupational therapist).

A BPI is needed to put in place effective and suitable interventions for a child. The initial BPI also establishes a baseline that states “where the child is now” and looks towards “where we want to go.” It is a “roadmap” that outlines how intervention will proceed. Through regular reviews, the plan measures the child’s progress. It is important that parents are part of the planning and review processes.

The BPI is required for children under the age of six. Although a BPI is not required for children older than six, it is recommended that intervention is always guided by a plan that is regularly reviewed.

A Behavioural Plan of Intervention (BPI) should:

- Be completed within the framework of best practices
- Be based on a developmental curriculum that includes: identifying global goals for all areas of development (academic, communication, social skills/play skills, motor/sensory functioning and independence/life skills)
- Identify specific goals within the global goals
- Include input from specific professionals who are on the team, as appropriate
- Identify the specific teaching strategies or methods to be used to achieve each goal
- Use ongoing data collection procedures to monitor the child’s progress and make adjustments to the child’s program based on this information
- Use a functional approach to challenging behaviour
- Identify team members (including their contact information) and their responsibilities to ensure collaboration, communication and accountability
- List dates for regular review and updating of the plan, based on the child’s individual needs (e.g., some children may require reviews as often as monthly)
- Include strategies for generalization and maintenance of acquired skills across different environments and ensure that these are regularly addressed, monitored and updated

See page 30 for a Behavioural Plan of Intervention (BPI) Template.
Contact Us

We are here to assist you and ensure you receive accurate and helpful information.

Autism Funding Unit

This unit is responsible for funding agreement processing, payments to families and service providers, and financial reconciliation.

For inquiries regarding eligible expenses and parental responsibilities associated with funding agreements:

In Victoria: 250 387-3530
Toll-Free: 1 877 777-3530 (translation services available)
Fax: 250 356-8578

Appendix 3: Autism Funding – Summary of Eligible Expenses

Autism Funding: Under Age 6 may only be used for:

- Services of behaviour consultants, speech-language pathologists, occupational therapists, and physiotherapists who are listed on the Registry of Autism Service Providers (RASP), at www.actcommunity.net/.
- Behaviour interventionists
- Administrative costs (up to $100 monthly). Only for families receiving direct funding.
- Applicable employer costs (e.g., employee income tax, Canada Pension Plan, Employment Insurance and Workers Compensation Board premiums, 4 per cent vacation pay).

Autism Funding: Ages 6 – 18 may only be used for:

- Behaviour consultants
- Speech-language pathologists, occupational therapists, physiotherapists
- Behaviour interventionists
- Life skills and social skills programs
- Out-of-school support/tutoring (not part of regular school program)
- Specialized therapeutic activities and camps designed to address your child’s ASD
- Dietary or nutritional counselling from a registered dietician/nutritionist
- Family counseling/therapy
- Other interventions recommended by a professional/specialist—pre-approval suggested
- Administrative costs (up to $50 monthly). Only for families receiving direct funding.
- Applicable employer costs (e.g., employee income tax, Canada Pension Plan, Employment Insurance and Workers Compensation Board premiums, 4 per cent vacation pay).

Up to 20 per cent of BOTH Autism Funding: Under Age 6 and Autism Funding: Ages 6-18 may be used for:

- Training within B.C.
- Travel costs to access autism intervention or training within B.C. (round trip greater than 80 kms)
- Equipment, as necessary for effective intervention, outlined in a Justification for Equipment/Supplies form, from a professional/specialist—pre-approval suggested

Please note: A professional/specialist is defined as a behaviour consultant, physiotherapist, speech-language pathologist, paediatrician, psychiatrist, registered psychologist, registered psychological associate, neurologist or occupational therapist.

Call 1-877-777-3530 for further information.
Appendix 4: Autism Funding – Summary of Ineligible Expenses

Please note: Some interventions and equipment recommended by a professional/specialist are ineligible expenses. The following are examples of items that are ineligible expenses:

- Home repairs, renovations, swimming pools, hot tubs, trampolines, playground equipment
- Household items, including appliances
- General recreation and sports enrolment fees
- Sports/fitness equipment, including bicycles
- Electronics, including televisions, CD players, stereos, MP3 players, game systems, video games, tracking devices, and cellular phones/palm pilots
- Non-ASD specific CDs, DVDs, and videos
- Musical instruments (purchase or rental)
- Vitamins, medical supplies, incontinence supplies, orthotics
- Clothing, helmets
- Food (however, small reinforcers for Applied Behaviour Analysis therapy may be eligible)

The following are examples of services that are not eligible:

- Child care
- Respite
- Lessons (group or individual), such as swimming and karate
- Medical services

Not all ineligible expenses are listed. It is recommended that families contact the Autism Funding Unit at 1-877-777-3530 for pre-approval before purchasing items.
